

## Software Update Maintenance provides you with...

The following benefits are available exclusively to clients with current Software Maintenance Agreements:

- ◆ Updates that include new and improved features
- ◆ Authorization Codes to add new dentists
- ◆ Workstation license transfer between computers
- ◆ Ongoing support for integration with third party products including most digital radiography systems

In addition, Maintenance Subscribers are entitled to:

- ◆ Add workstation licenses
- ◆ Transfer your license on the sale of your practice

### Here are the Benefits of Software Maintenance:

#### Regular ABELDent Updates

ABELDent updates that contain new and improved features and support for new operating systems and other technologies.

#### Unlimited Authorization Codes

Authorization for additional dentists to use your ABELDent software.

#### Reduced Pricing for Support and Services

Buy hours at reduced rates and use them for support, training or other ABEL services.

#### Patient Education Software

Use integrated Optio Dentistry patient education software at no cost.

#### Integration with Third Party Products

Take advantage of ABELDent's integration with many third party software and services including Microsoft Word and many imaging, digital radiography and dental specialty products at no cost.

#### Software License Changes

Change your software license as your practice changes. Add new dentists at no cost. Transfer your license on the sale of your practice for a nominal fee.

#### Preferred Pricing for Additional ABELDent Licenses

Save up to 50% on the cost of additional ABELDent licenses if you open or acquire new practices.

#### Quantity Discounts on Licenses

Discounts on the purchase of additional workstation licenses. The more licenses you buy, the greater the discount.

#### Upgrade to ABELDent SQL

The SQL version of ABELDent is available at no charge to ABELDent MDB users.\* As a Microsoft Gold Certified Partner, we can also offer you a discount on the required Microsoft SQL licenses.

\*Data integrity verification and migration service fee applies.

#### Savings on Multiple Year Maintenance Subscriptions

Save as much as 20% by buying a subscription of between two and five years and lock in at today's pricing for the entire period of your agreement.

#### Discounts on Special Services

Discounted pricing on special services, such as Backup Verification Service.

# A prescription for your peace of mind...

**Protect your investment and increase your peace of mind with ABELDent Software Maintenance. Changes in technology and the dental profession provide constant opportunities for dental providers to improve their practice. Our objective is to help you benefit from those changes. You can count on ABEL's stable history in this ever-evolving landscape.**

Whether you use ABELDent to support your paperless practice or primarily for its administration and management features, ABELDent updates provide many opportunities to improve efficiency, profitability and patient care.

We want you to remain completely satisfied with our products and services over time. Your participation in our Maintenance program allows you to benefit from the combined resources, knowledge and creativity of ABEL's staff and thousands of your colleagues all across North America.

**2015 will be an exciting year for ABELDent, with enhancements to Sign-in Kiosk, Lab Case Tracking, Time Clock and Patient Portal, to name just a few!**

## ABELDent Updates

The following enhancements and new features are included in the latest ABELDent or an upcoming release.

**Sign-in Kiosk.** ABELDent's integrated Sign-in Kiosk streamlines front desk workflow. Patients can sign themselves in on a touchscreen or tablet and your team will immediately be informed of their arrival through ABELDent. ABELDent Kiosk will provide a platform for future time-saving features including new patient registration, Portal registration and patient consent.

**Lab Case Tracking.** Avoid unpleasant surprises and last-minute cancellations by tracking outstanding lab cases. Lab Case Tracker lists outstanding lab cases and expected return date and provides a warning when cases do not arrive on time.

**Time Clock.** Collect working time information to assist in processing payroll. Staff can "punch in" and "punch out" to record arrival, departure and non-working time. Time Clock records the actual time as well as reported times, notes, automatically logs off if forgotten, and prints employee time and staff summary reports.

**Treatment/Contact Management.** A re-designed Contact Manager (now called Treatment Manager) includes many enhancements to help you keep your schedule full and your days productive. Benefit from support for multiple simultaneous users (using different criteria), more information to assist follow-up, and integration with ABELDent Portal\* for targeted follow-up by email or SMS.

**Insurance Coverage Tracking.** Support for more coverage information with easier access. Enter three or more insurance plans for each patient. A re-designed Insurance section makes more information quickly available when you need it.

**Improved Software Performance for ABELDent SQL.** ABELDent users with an SQL database benefit from the improved performance of some commonly used features. Future updates will continue to utilize the wider capabilities of SQL, the recommended database platform for running ABELDent.

**Client Contact Preferences.** Keep your patients content by recording their permission to use email and SMS for appointment reminders and other types of contact. With ABELDent Portal\*, patients can select their own preferences.

**Improved Charting and Clinical Notes.** Clinical notes are faster, easier to create and more easily customized to the needs of individual providers. A more accurate odontogram includes additional conditions and procedures.

**Enhanced Periodontal Charting.** Create your periodontal charts more quickly and efficiently. Perio charts now have a more efficient workflow, improved voice control and user-customizable notes and forms.

**Improved Treatment Planning.** Easier to use with more flexibility, treatment planning now includes improved on-screen and printed treatment presentation material.

**Improved Electronic Signature Capabilities.** Capture signatures electronically and protect documents using a wider variety of electronic signature devices.

**New and Improved Management Reports.** ABELDent now offers additional reporting on key financial, productivity and treatment scheduling measures. These new, or improved, reports help you review practice performance.

\* ABELDent Portal is a web-based patient communication system. See the next page for more information.

## ABELDent-Integrated Services

Take advantage of these additional services available to ABELDent users. Please call for more information and pricing.

### ABELDent Portal

ABELDent Portal is a patient communication system designed specifically for ABELDent users. In addition to an integrated email and SMS appointment reminder system that will save you hours of work, Portal provides a safe place on the Web where patients can keep you up to date on changes in their demographic data, schedule outstanding treatment and submit health history forms. Portal will improve your patient satisfaction while saving you time.

### ABELDent Mobile

ABELDent Mobile gives you remote access to your appointment schedule and other ABELDent data from your mobile phone or tablet. Support for the iPhone, Android and Blackberry platforms.

### Remote Monitoring and Administration

We provide remote monitoring of your system 24/7/365 to detect problems before they result in serious consequences to your practice. Gain peace of mind knowing that we will alert you promptly if problems arise with critical areas of your system.

### Disaster Recovery and Remote Backup Service

ABEL can help you safeguard your valuable practice data against threats like hard drive failure, fire, flood, and theft. ABEL Remote Backup Service will perform encrypted, off-site backups to a secure location daily and monitor the process to ensure that your backups are successful.

### Internet-based Training

To ensure that our clients derive maximum benefit from ABELDent, we offer Internet-based Training. Sessions are held on a variety of topics including those related to specific updates, features or roles within a practice. There is no limit to the number of staff that can participate and each registered attendee is eligible to receive a certificate that can be submitted for Continuing Education Credit.

For more information, please call 800-267-ABEL (2235) and press 1.
